

COURSE OVERVIEW & DESCRIPTION

This qualification is aimed primarily at giving the learner technical, theoretical, practical and workplace knowledge and skills required in their chosen occupational/vocational area. The design of the qualification is such that it enables learners to progressively obtain the qualification by completing the related N4, N5 and N6 courses in a particular vocation/occupational area, either separately with breaks between, or in one extended study period of a year or 18 months and then to apply the knowledge and skills learned in the workplace for an extended period. The N4+N5+N6, regardless of the manner in which they are completed, must be followed by or integrated with the relevant 18 months of practical workplace learning for the learner to be awarded the National N Diploma, Level 6
