General Information

Skills Programme Rationale

Learners completing this skills programme will likely feed into the industry as Bricklayer's Assistants which is an accessible industry requiring casual, permanent and project labour supplied in all regions. There are no similar skills programmes approved and recorded in the OQSF.

The sectors making use of is Construction and the Built Environment. Typical learners that will make use of the programme are unemployed persons. The skills program does not relate to requirements of any professional registration membership or licensing.

Purpose

The purpose of this skills programme is to enable learners to conduct basic bricklaying operations under the supervision of a skilled artisan. A qualified learner will be able to assist an artisan/skilled builder to:

- use physical quantity estimates and calculations provided
- prepare a construction/building site, interpret building drawings, transfer levels, etc.
- set up and dismantle of building equipment/structures
- lay different types of bricks using mortar to build superstructures and decorative structures according to measurement
- conduct finishing operations
- provide housekeeping and appropriate waste removal service

Entry Requirements

- This is an open access qualification

Final Integrated Supervised Assessment (FISA)

All learners gain entrance to the Final Integrated Supervised Assessment by successfully completing all formal summative assessments conducted by the SDP.

Course Requirements:

- PPE – (Purchase from College)
- Study Material / Log Book

Fees

- Registration Fees: **R1000**
- **Deposit Fees: R3000**
- Total Fees: **R19,500**

Duration: 55 Days

Skills Programmes

There is no **EISA** for skills programmes. Instead, the skills programme document gives the specifications for a **Final Integrated Supervised Assessment (FISA)** instrument that learners will need to complete. The SDP is responsible for setting and moderating the **FISA**.

The SDP needs to submit skills programme results to the QCTO within 21 days.

The assessment and moderation process must still be quality assured by the QCTO before the learners can be certificated. The Assessment team samples learners and looks at the tool and moderation reports.

FISA

A decentralised **Final Supervised Assessment** takes place for historically registered qualifications (in addition to the current PoE practice), as well as for **QCTO Skills Programmes**

CERTIFICATION

SDPs are not allowed to print their own certificates for occupational qualifications. Certificates are issued by the QCTO's secure CVS certification system.
